TO THE PUBLIC.

In compiling and arranging this book, it has been the object to make its contents as plain and therefore as useful to strangers as a work of this kind can be made. There are many who visit the city, who from lack of knowledge of places of interest, leave again, without having seen anything but "bricks and mortar," whereas with a book of this nature in their pockets, they would have been enabled to learn and observe many of the city *sights*, without troubling their friends or asking strangers. Accompanying this little work is a fine *Map of the City* and famous *Central Park*. Confident that its issue meets a want long felt, the undersigned, without further remark, offer their "STRANGERS' GUIDE" to those whom pleasure or business may have called to the city, earnestly hoping that it will fully answer the purpose for which it is intended.

THE PUBLISHERS.
